The products are manufactured by Danfoss Drives A/S, DK6300 Graasten, Denmark and by Danfoss Drives Inc., Rockford, USA.

Tests at several car manufacturers including OPEL GmbH (General Motors) in Germany have proven that none of the above drives emit silicone in any form during operation (even when exposed to ambient temperatures up to 70° Celsius (158° Fahrenheit)).

The drives have been approved by the car manufacturers for use in the lacquering processes at their facilities.
